🧠 SKILLS

C++ • Python • Java • DSA • OOPs • DBMS • MySQL • HTML • CSS • JavaScript • React.js • Redux • Node.js • Angular • Bootstrap • Git • GitHub • Linux • PHP

📁 PROJECTS

Snake Game ⤴
Jul 2024
- Built a classic Snake Game with React and Redux, featuring smooth movement, collision detection, and score tracking using Redux for state management.
- Styled the game with Chakra UI for a responsive and visually appealing interface, highlighting my front-end development and game design skills.

Portfolio Website ⤴
Apr 2024
- Developed a visually appealing portfolio website using modern front-end technologies like React, HTML/CSS, and JavaScript. The website showcases my projects, skills, and professional journey in a clean, responsive design.
- Integrated creative animations and interactive elements with CSS animation libraries to enhance user engagement, demonstrating my proficiency in front-end development and attention to user experience.
